RE: Expenditure and Revenue Reports for December 2022

December is month six or 50% of the budget for the 2022/2023 fiscal year. The expenditure report represents expenditure totals that include funds expended and encumbered. The total year to date funds expended and/or encumbered through the month of December is \$29,165,774.

The total current unrestricted fund expenditures through December are \$15,833,663, which is 49% of the projected budget. Expenses for Instruction and General are up as compared to FY 22 for the first six months of the fiscal year. This is due to an increase in salaries and benefits. In other Current Unrestricted Funds, expenses are also up as compared to FY 22 due to an increase in salaries and benefits and increase in dual credit enrollment related to CTech. Internal Services which consists of the Computer Services and the Document Center continue to receive monthly credits from Instruction & General to cover the operating costs. Over all, expenditures are up as compared to December 2021.

In the Restricted Funds, the expenditures in the Grant area is tracking along as expected. The Business Office continues to monitor the expenditures in the Grants and request the drawdown from the state and federal agencies. The year-to-date Restricted Student Aid is lower as compared to December 2021, this is mainly a related to HEERF awards awarded last year that are not being awarded in FY 23. Total amount of restricted funds expended through December of 2022 is \$2,667,198.

Plant fund expenditures for December were \$2,570,439; the total year-to-date including encumbrances is \$10,664,913. Projects with major expenses and encumbrances include Tech Upgrade, Fire Alarm Upgrade, Campus Paving, Campus Wide Site Project, Facilities Management System Upgrade, Vocational Training Facility, Campus Housing Unit, Cafeteria Construction, Campus Security Upgrades, Driving Range Upgrades, WHM Storage Building, Track Upgrades, and Campus Wide Access Control. Oil and Gas mill levy for the month of December was \$7,057,025 and the equipment tax revenue for December was \$9,467,094. The property tax revenue received in December was \$4,579,551. Looking at the past trends in property tax payout, the College should receive additional property tax revenue in January and then again in June. In FY 22 the total for mill levy property tax was \$16,308,747.

\$177,487 was draw in for Grants and Student Aid in December. Total restricted fund revenue for the year is \$2,385,318. There should be additional funds drawdown in January and February for restricted student aid.

In Plant Funds, the College drew down \$39,595 for the Vocational Training Building project from Severance Tax Bonds. LGIP interest income for December was \$476,276. LGIP interest is way above what was budgeted due to the large balances in the LGIP and the increase in rates that have occurred during FY 23. This budget will be adjusted when the end-of-year budget is submitted to HED.

RE: NMJC Cafeteria and Kitchen Project

Date: January 12, 2023

Board members,

As you may recall, at the November 2022 NMJC Board meeting, you were presented with a request to approve the Cafeteria and Student Hub projects. The Board requested us to gather additional data before an approval could be granted. We gathered the data and presented it to the newly formed NMJC Facilities Committee on Monday, January 9, 2023.

It was determined at the NMJC Facilities Committee meeting that two recommendations needed to come before the Board at the January Board Meeting. The first recommendation is for the change in scope on the Cafeteria project from a renovation to a new build. The second recommendation is for the approval of the Cafeteria project supported by the rationale. In addition, we have an additional recommendation as well today related to transferring of funds from reserves into the Cafeteria project.

Today, we are asking for three separate motions by the board:

- 1. The change of scope on the Cafeteria project from a renovation to a new build.
- 2. The approval of the NMJC Cafeteria and Kitchen Facility with an estimated total project cost of \$13,325,733.
- 3. The transferring of \$2,420,733 funds from reserves into the Cafeteria Project.

Below are the details set forth discussing the motions begin request by the Board today.

The Administration is asking for your approval to amend the NMJC Campus Master Plan approved in September 2019 and revised in December 2021 as it relates to Table 22, Project Priorities. Table 22, Project Priorities list the Ben Alexander Student Center renovation and expansion of existing kitchen and cafeteria as an "On-going" priority for NMJC. After careful consideration by NMJC Administration, we are requesting to revise Table 22, Project Priorities from the Ben Alexander Student Center renovation and expansion of existing kitchen and cafeteria to the NMJC Cafeteria and Kitchen, a new cafeteria and kitchen facility located to the southwest of the Caster Activity Center, outside of Thunderbird Circle and adjacent to the NMJC Student Dorms and Apartments.

The requested change of scope from a renovation to a new build is due to several factors:

- ➤ The construction estimate for a renovation is \$8,959,964 compared to \$9,926,800 for a new build. However, renovations are riskier. There are many unknown costs that could occur once a renovation begins. Renovation would require the investment into temporary facilities estimated at \$1,125,000. These funds could be invested towards a new build. Considering these financial considerations, a new facility is a better investment of NMJC funds.
- Renovating Ben Alexander would not provide the open (free of columns) and natural light needed to make this space above and beyond our competitors.
- Adding the required area to the existing space in Ben Alexander would be very difficult.
- Renovating Ben Alexander would require relocating the game room, security office, and mailroom/cashier window.
- The majority of those using the cafeteria are housing students. Having the cafeteria in closer proximity to the housing units increases access and likely use for those students.
- Moving the cafeteria in closer proximity to the housing units will also afford more opportunities to provide special dining opportunities in conjunction with student life events in the evenings helping to develop a sense of community and promote student satisfaction in order to increase student retention and success.
- Opportunities for living/learning communities.

Based on the above reasons, the Administration is requesting your approval to amend the NMJC Campus Master Plan from the Ben Alexander Student Center renovation and expansion of existing kitchen and cafeteria to the new NMJC Cafeteria and Kitchen facility.

Now, the Administration is asking for your approval to take the new NMJC Cafeteria and Kitchen facility to the Higher Education Department for approval at the April 12, 2023 New Mexico Higher Education Department Capital Outlay Committee Meeting. Design of this project has been overseen by Dekker, Perich & Sabatini (DPS) Architects and Bradbury Stamm Construction has been the Construction Manager on this project. Bradbury Stamm Construction has been working alongside DPS during the project's design and planning phases and will act as the general contractor during the construction phase to select, schedule, and sequence subcontractors to complete the required construction work.

As design progressed on this project, DPS worked with XC Studio to determine space needs based on building population and participation assumptions. Building population and participation factored in that the NMJC Strategic Enrollment Plan targets 3,500 students by the 2025-26 academic year and 4,000 students by the 2027-28 and that with an addition of a new housing unit planned for in the NMJC Campus Master Plan, there will be a projected 265 increase in meals per day and an additional 200 meals per day, if a second housing unit is built.

The current dining room in Ben Alexander is of adequate size to accommodate seating for the anticipated increase in participation. The area that critically needs additional square feet is the back-of-house (preparation, storage, dishwashing, catering) as well as the serving areas (of which we have currently expanded out into the dining are due to lack of space. The additional preparation area is needed for a more efficient workflow and to allow for the increase in diners and expansion of menus. The additional storage and walk-in freezer and refrigeration areas will allow the ability to order more than one week at a time, reducing the dependency on trucks to arrive on time each week.

A comparison of the current facility and proposed facility is provided below:

Area	Current Square Feet	**Proposed Square Feet
Dining Area	5,219	6,437
Serving	1,048	2,679
Kitchen	2,091	3,879

^{**} Based on targeted 3,500 to 4,000 student enrollment per Strategic Enrollment Plan

The design of the new NMJC Cafeteria and Kitchen facility developed by DPS is a 16,600 square foot facility including 6,437 square feet of dining space, 2,679 square feet of serving space, and 3,879 square feet of kitchen space. The estimated total project cost developed by Bradbury Stamm Construction using DPS' construction documents (\$9,926,800) and including 25% soft costs (\$3,308,933) is \$13,235,733. NMJC has allocated \$10,905,000 in institutional funds for this project.

We are requesting approval of the NMJC Cafeteria and Kitchen Facility with a total project cost of \$13,235,733.

We are also requesting the Board to transfer from reserves \$2,420,733 into the NMJC Cafeteria and Kitchen project.

Thank you.
Josh Morgan

Re: Donation request of old turf removed from Ray Birmingham Baseball Field

This memo is being submitted for consideration of donating the old turf removed from the outfield of Ray Birmingham Field in the summer of 2021. This material does not possess an inventory tag, but due to the purchase of completing the original project of turfing the NMJC baseball field, the product is in possession of NMJC.

The Athletic Department is requesting the ability to donate this material to any New Mexico program that can utilize the items. Our department has been contacted by various groups and individuals that have interest in the product, but Athletics has retained the items for potential repurpose.

Time has come to move this product to another location and donation would be the best plan the for use.

Athletics would greatly appreciate your consideration in this matter.
